- Capacities from 3 kg to 30 kg
- All stainless steel IP66 construction
- Bright LED or LCD display
- Battery and mains powered versions
- Bush button target setting
- Simple weight display
- Over/under/accept indicators

# C3265 Checkweigher

## Features

The C3265 is a bench checkweigher particularly suited to the food industry. Capacities range from 3 kg up to 90 kg, with EU Trade Approval to 3000 divisions, or non-approved to 6000 divisions.

**Protection where you need it - In The Workplace -**  
The scale is fully stainless steel, including the load cell, and sealed to IP66 (NEMA 4X) for added protection in washdown environments.

**In The Scale Base -** A 'Breakaway Load Transfer System' transfers shock loads and overloads away from the load cell, for added protection and reliability, giving up to 500% overload protection.

**In the Pocket -** The rugged reliability comes to you at a very competitive price. A rapid-response display combines with the scale's superior accuracy to minimise your 'give-away'.

## Options

**Battery Option -** 12 V DC for LCD version.  
With 30 hours battery life, 14 hour recharge time.  
Power-preserving shut down and low battery warning.

**Column Option -** Available with either a low head (135 mm to centre of display) or a column-mounted head (310 mm to centre of display).

**Remote Head Versions -** Also available.

**Data Output Option -** An RS232 or RS485 is available for all models.

a division of Avery Weigh-Tronix
